# Historical Proof

## Silver Proof Sets from the United States Mint

The new U.S. Mint Silver Proof Set commemorates the history of our nation. These coins are extraordinarily brilliant with sharp relief and a mirror-like surface. They feature frosted, sculpted foregrounds created by the exacting proofing process.

The 10-coin set includes the Golden Dollar, the Kennedy half-dollar, the Roosevelt dime, the Jefferson nickel, the Lincoln penny and the five new coins in the 50 State Quarters™ Program.

Each coin is struck multiple times with specially polished dies and is carefully inspected for exacting quality and detail. The Roosevelt dime, Kennedy half-dollar and each of the 50 State Quarters are struck in 90% silver, generally referred to as "coin silver."

These untouched, coins are then packaged in presentation cases to preserve their exceptional finish. They are the ultimate expression of the minter's art.
